www.goodrich.co

Chemical logistics, a division of Goodrich, has grown rapidly over the years and now boasts of an impressive list of customers. Chemical logistics' activity segments include equipment adjuncts such as ISO Tanks, Swap Tanks, Lined Tanks and a state of the art storage and distribution facility located at the Free Trade Zone in Jebel Ali.

CHEMICAL STORAGE FACILITY - JAFZA

- ✓ Storage of Chemicals under class 3,6 8,9 & Non-regulated.
- ✓ Drum / IBC Filing
- ✓ Temp controlled storage
- ✓ Transloading from ISO-ISO/ Flexi & Road Tankers
- ✓ ISO tank cleaning , storage & repair depot alongside thru Road tanker cleaning
- ✓ Blending and Heating Tanks

SERVICES OFFERED

- ✓ ISO TANKS Chemical carriage (hazardous & non-hazardous)
- ✓ Food grade
- ✓ All ISO Tanks are SS 316L type with capacities between 24 KL to 26 KL
- ✓ Dedicated Technical Team to provide support in all situations and contingencies
- ✓ SOC Tank Management
- ✓ Complete End to End Logistics
- ✓ FLEXI TANKS for non-hazardous and food grade cargo only
- ✓ SWAP BODY TANKS for carriage of higher payloads

Welcome to ChemExpo India 2024 Connecting India to the world

Welcome to ChemExpo India 2024 – India's most comprehensive show for the chemical and allied industries.

This event runs alongside two co-located shows:

- **ChemProTech India 2024**, for Chemical Process Technology, Equipment; and
- **ChemLogistics India 2024**, focused on Chemical Warehousing, Transportation & Logistics.

We have received a great response to the event – which is manifest in the fact that there are over **520+ Exhibitors** showcasing their products and services. Of these over **220+ companies** are exhibiting for the first time.

The exhibitors include producers and suppliers of fine chemicals, active pharmaceutical ingredients, pharmaceutical intermediates, dyes and pigments, agrochemical intermediates, water treatment chemicals, coating additives, catalysts and enzymes, among many other products.

As we go into the show, we have over 10,000 pre-registered visitors, and we expect the number to go up substantially today and tomorrow.

Do take some time to attend the conferences that run through both days in a dedicated area on the floor of the exhibition.

Exhibitions are more than anything about connecting people, and we are confident that over the two days of the show you will make new connections and renew old ones.

Team ChemExpo India

KLJ GROUP

Total Solution in Plasticizers & Polymer Compounds

PLASTICIZERS

PHTHALATES | ADIPATES | TRIMELLITATES | CITRATES | STEARATES | SEBACATES | DIBENZOATES |
TERE PHTHALATES | MALEATES | POLYMERIC | BIO PLASTICIZERS | ESBO

CHLORINATED PARAFFIN (CP)

vLCCP | LCCP | MCCP | SCCP

POLYMER COMPOUNDS

POLYPROPYLENE | ENGINEERING PLASTICS | PVC | XLPE-SIOPLAS | XLPE-PEROXIDE | SEMI CONDUCTIVE | EPR/XLPO |
ZHR | PO | HDPE | TPR | TPE | EVA | MASTERBATCH - PVC, PE, UNIVERSAL & FUNCTIONAL (UV, AT, AR, FR)

BENZ PRODUCTS

BENZYL ALCOHOL | BENZALDEHYDE | BENZYL CHLORIDE | DI BENZYL ETHER | BENZYL BENZOATE | BENZYL ACETATE

CHLOR ALKALI

CAUSTIC SODA PRILLS | CALCIUM CHLORIDE | CHLORINATED PARAFFINS | HYDROCHLORIC ACID | SODIUM HYPOCHLORITE

ACID & ACID ANHYDRIDES

PHTHALIC ANHYDRIDE | MALEIC ANHYDRIDE | BENZOIC ACID

PETROCHEMICAL DISTRIBUTION

AROMATICS | ACETATE | KETONES | OXO ALCOHOLS | GLYCOLS | ETHERS | ACRYLATE | AMINES | ACID | MORE THAN 200 SPECIALITY PRODUCTS

INDUSTRIAL LUBRICANTS & POLYOL SYSTEM HOUSE

INDUSTRIAL OILS | PROCESS OIL | IP/BP/USP | GRADE SOLVENTS & OILS | PU SYSTEM HOUSE

SPECIALTY ESTERS & EMULSION

MANUFACTURING OF AMPHOTERIC SURFACTANTS, PHOSPHATE ESTERS, WAX EMULSIONS, IMIDAZOLE, EO & PO DERIVATIVES

POLYMER DISTRIBUTION | REAL ESTATE DEVELOPMENT

MANAGING PHILOSOPHY
HARMONY
 BUILD THE HARMONY AMONG ENTERPRISE
 AND EMPLOYEES&PRODUCTS

MANAGING POLICY
CONSISTENCY
 BUSINESS IS LONG,CONSISTENT MANAGEMENT,
 ADVANCE WITH TIMES

VALUES
SINCERITY
 HONESTY,CREDIT AND RESPONSIBILITY
 IS THE ROOT OF ENTERPRISE

Trust Chem is the main rules maker and loyal performer for BTA and TTA Industry standard.
 The biggest manufacturer,supplier and exporter of Benzotriazole and Tolyltriazole in the world.
 One of the first registered suppliers of REACH

MAIN PRODUCTS

- BENZOTRIAZOLE(BTA) 99.8%**
- TOLYLTRIAZOLE(TTA) 99.5%**
- SODIUM BENZOTRIAZOLE(BTAS) 40%**
- SODIUM TOLYLTRIAZOLE(TTAS) 50%**

www.BTA-TTA.com

The company has passed ISO9001, 14001, 45001 and other system certification, and has its own import and export department.

RISHI CHEMICAL WORKS®
India's leading Bulk Fine Chemical Manufacturer

We build partnerships, beginning with strong foundations & grow on trust

Leading Manufacturer of **BULK FINE CHEMICALS**

All chemicals conforming to IP/BP/FCC/EP/USP & Custom Spec.

Aluminium Nitrate	Potassium Sulphate
Aluminium Nitrate 9-Hydrate	Sodium Acetate Anhydrous
Ammonium Chloride	Sodium Acetate Trihydrate
Ammonium Sulphate	Sodium Acid Pyrophosphate
Calcium D-Saccharate Tetrahydrate	Sodium Benzoate
Calcium Propionate	Sodium Bicarbonate
Ferric Ammonium Citrate (Green)	Sodium Carbonate Anhydrous
Ferric Ammonium Citrate	Sodium Carbonate Monohydrate
Ferric Orthophosphate 2-Hydrate	Sodium Chloride
Ferric Pyrophosphate 9-Hydrate	Sodium Citrate Dibasic
Ferrous Fumarate	Sodium Citrate Monobasic
Ferrous Sulphate (Dried)	Sodium Citrate Tribasic Anhydrous
Ferrous Sulphate Heptahydrate	Sodium Citrate Tribasic Dihydrate
Iodoform	Sodium formate
Magnesium Carbonate Heavy	Sodium Gluconate
Magnesium Carbonate Light	Sodium Iodide
Magnesium Oxide Heavy	Sodium Phosphate Diabasic Anhydrous
Magnesium Oxide Light	Sodium Phosphate Dibasic Monohydrate
Magnesium Sulphate Heptahydrate	Sodium Phosphate Diabasic Di-Hydrate
Potassium Acetate	Sodium Phosphate Diabasic Heptahydrate
Potassium Bicarbonate	Sodium Phosphate Diabasic Dodecahydrate
Potassium Chloride	Sodium Phosphate Monobasic Anhydrous
Potassium Citrate Monohydrate	Sodium Phosphate Monobasic Monoydrate
Potassium Iodide	Sodium Phosphate Monobasic Dihydrate
Potassium Phosphate Dibasic Anhydrous	Sodium Phosphate Tribasic Anhydrous
Potassium Phosphate Monobasic Anhydrous	Sodium Phosphate Tribasic Dodecahydrate
Potassium Phosphate Tribasic Anhydrous	Sodium Propionate
Potassium Sodium Titrate 4-Hydrate	Zinc Sulphate Monoydrate
Potassium Sorbate	Zinc Sulphate Heptahydrate

Custom specification also available upon request.

Ace Industries (India) Pvt. Ltd.

Contact Person: Mr. Amit Makani, Director
 Address: 113, Alphine Industrial Estate, Marol Military Road,
 Andheri (East), Mumbai-400059, Maharashtra, India
 Phone: +91 22 42258000
 Website: <https://www.acecentrifuges.com/>

ACE INDUSTRIES is an engineering company which specialises in the design, manufacture and supply of BASKET TYPE CENTRIFUGE to industries like pharma and chemical for their many applications. We have an impressive track record working in this field for over three decades having supplied more than three thousand centrifuges (on turnkey basis all over the world) with exports to countries like the US, UK, Argentina, Jordan, Italy, Thailand, Nigeria, South Africa, Philippines, Malaysia, Bahrain, Iraq, Iran among others. Our manufacturing facilities lie in Maharashtra and Gujarat. Mr. M.H. Makhani, the Promoter of ACE INDUSTRIES, is a UDCT B.CHEM ENGG. graduate who perfectly understands the buyers' requirement and can therefore manufacture to suit their specific requirements. We have also successfully supplied and commissioned many chemical plants for conversion of sulphur to other useful chemicals.

1B24

Acme Sujan Chemicals

Contact Person: Mr. Nikhil Patil, Marketing and Sales
 Address: D-70, 71, MIDC Road, Industries Estate,
 Jalgaon-425003, Maharashtra, India
 Phone: +91 9423185240
 Website: <http://acmesujan.com/>

Acme Sujan Chemicals is a leading Fine and Speciality Chemicals manufacturing Company focused on delivering innovative technology and service excellence to customers across the world. With unique capabilities in organic chemistry and chemical engineering with respect to Phase transfer Catalysis, Pharmaceuticals active intermediates, Cosmetic ingredients sunscreen agents, Perfumery aromatic intermediates and photochemical developers. Each of our Fine chemical business sectors offers excellent products and services to our domestic and global customers. We export thirty percent of production in Europe, US and South America, Middle East and South East Asia.

ACS International India Pvt. Ltd.

Contact Person: Mr. Jimit Upadhyay, Marketing Manager
 Address: Baner One, 1 - 3 Floor, S. No. 23,
 Nr. Baner-Pancard Club Road, Pune-411045,
 Maharashtra, India
 Website: <https://acs-i.org/>

CAS is a leader in scientific information solutions, partnering with innovators around the world to accelerate scientific breakthroughs. CAS employs hundreds of experts who curate, connect, and analyze scientific knowledge to reveal unseen connections. For over 100 years, scientists, patent professionals, and business leaders have relied on CAS solutions and expertise to provide the hindsight, insight, and foresight they need so they can build upon the learnings of the past to discover a better future. CAS is a division of the American Chemical Society. Across the innovation process, CAS delivers world-class solutions through: • UNPARALLELED SCIENTIFIC CONTENT • SPECIALIZED TECHNOLOGY • UNMATCHED HUMAN EXPERTISE Connect with us at cas.org.

3A06

Ad Pharmachem Pvt. Ltd.

Contact Person: Mr. Umesh Deokar, Accounts Manager
 Address: G-39/9, MIDC Waluj, Aurangabad-431136,
 Maharashtra, India
 Website: <https://adpharmachem.com/>

AD PHARMACHEM was established in the year 1998 under the visionary leadership of Dinkar B. Arbale. We are one of the fastest-growing API Intermediate & Fine Chemical companies of India, serving to Pharma & Agro Industry. Our or-

ganizational function consists of Research and Development, Supply chain, Manufacturing, Quality Testing, Quality Assurance, Marketing & Sales, and Packaging & Warehousing departments. And all the divisions are supervised by senior-most professionals with vast experience and significant domain expertise. Headquartered in Aurangabad and having our manufacturing facilities strategically located in the State of Maharashtra, we at ADPL are ensuring seamless access to our products throughout the country and world. Through our emphasis on affordability, quality and timely delivery, we are endowing our partners with significant cost advantage and reduced time-to-market for their products.

1E17

Adani Wilmar Ltd.

Contact Person: Mr. Abhinandan, Oleo Chemicals Marketing
Address: Fortune House, 4th Floor, Nr. Mithakhali Circle, Navrangpura, Ahmedabad-380009, Gujarat, India
Phone: +91 7383819375
Website: <https://www.adaniwilmar.com/>

Adani Wilmar Ltd (AWL). AWL is a 50:50 joint venture between two recognized Multinational Corporations – the US\$ 30 Billion Adani Group, the leader in international trading, Power Sector and Private infrastructure and Wilmar International Limited, Singapore, Asia's leading Agri business group with revenues exceeding US\$ 42.64 Billion. Wilmar has oleochemical operation spanning in Malaysia, Indonesia, China, Europe, and US. Adani Wilmar Group owns the largest edible oil brand "Fortune" in India and successful foray into Food category making AWL to command sizeable market share in the Agri Food sector. More info about Adani Wilmar can be found in the link: www.adaniwilmar.com Adani Wilmar Limited commissioned India's single largest Oleo chemical complex in November 2012 and expanded similar capacity in October 2021. We are by far the largest basic Oleochemical player in India. We offer Products comprising of Soap Noodles, oleic acid, Refined Glycerine, Stearic Acid, Palmitic acid and the line products. Addition to this, we have forayed into oleochemical's downstream products which finds application in home & personal care, Plastics & polymers, Lubricants - Metal Working fluids, Food emulsifiers and Agrochemicals.

2C16

Adishank Chemicals Pvt. Ltd.

Contact Person: Mr. Amit Bavisi, Director
Address: E-2, MIDC, Anand Nagar, Addl. Ambernath, Ambernath (East)-421501, Maharashtra, India
Phone: +91 9821112126
Website: <https://www.adishank.com/>

Adishank is emerging as one of the most significant players in the specialty chemicals field in India. Engaged in the development and manufacture of a wide range of specialty chemicals and additives for Surface Coating, Polymer and Pharmaceutical Industry. The company is committed to delivering the highest quality specialty chemicals to fulfill industry specific needs.

Advance Petrochemicals Ltd.

Contact Person: Mr. Pulkit Goenka, Managing Director
Address: 36 Kothari Market, Opp. Hira Bhai Market, Kankaria, Ahmedabad-380022, Gujarat, India
Website: <https://www.advancepetro.com/>

ADVANCE PETROCHEMICALS LIMITED proudly stands as a distinguished manufacturer and exporter, specializing in the production of high-quality chemical products such as Glycol Ether, Surfactant, Lubricant, and Amines. With an illustrious history spanning over 38 years, we are dedicated to excellence and are currently on an exciting trajectory of expanding our production capacities across all facets of our operations. Our extensive product portfolio features a diverse range of meticulously crafted solutions, including Methyl Glycol, Methyl Carbitol, Butyl Glycol, Butyl Carbitol, Ethyl Glycol, Ethyl Carbitol, Triethanolamine, Methyl DiEthanolamine, Ethoxylate Castor Oil, Ethoxylate Nonyl Phenol, Ethoxylate Lauryl Alcohol, Polyethylene Glycol 4000-6000, Brake Fluid Dot 3, Dot 4, and a variety of Ethylene Oxide Derivatives. At the core of our success is a relentless pursuit of innovation and adherence to global quality standards. Join us at the upcoming exhibition to explore firsthand our cutting-edge solutions, witness our commitment to sustainability, and discover why ADVANCE PETROCHEMICALS LIMITED continues to be a trusted name in the industry. Be part of our journey as we highlight our significant expansion efforts, showcasing our latest advancements and demonstrating our dedication to shaping a sustainable and prosperous future together.

Advent Chembio Pvt. Ltd.

Contact Person: Mr. Shailesh Firke, DGM - Marketing
Address: R-483, MIDC, TTC Rabale, Navi Mumbai-400701, Maharashtra, India
Website: <https://adventchembio.com/>

ADVENT CHEMBIO PVT LTD is a Navi Mumbai (India) based Chemicals Manufacturing Company. Ours is a young organi-

zation started almost 10 years ago by a team of professionals from the Fine Chemicals industry with a combined experience of more than fifteen decades and we are rapidly expanding our footprints across the globe. Our product portfolio includes a wide range of • Fine & Specialty chemicals encompassing hosts of Inorganic salts, • Analytical reagents, • HPLC grade solvents, • GC grade solvents, • GC Secondary standards (traceable to USP/EP/BP), • Ion-pairing reagents, • Electronic grade products, • Research Chemicals • Building Blocks, • Advanced Intermediates • Pharmaceutical Impurities including working standards o Certified Reference Standards o Traceable Working Standards o In House Working Standards o Drug Impurities • Standards Required for BA/BE studies o Metabolites o Labelled Compounds o Drug Glucuronides Kindly make a note that, we will provide you characterization reports as per your requirements like CoA, HNMR, MASS, HPLC, IR, TGA / Moisture Content, Defined Potency, 13cNMR, SER, CHNS will be provided as per individual requirements. We have 2 manufacturing plants in Navi Mumbai (India) and a distribution network spread across the Globe. In addition to it we also manufacture pharmacopeial labelled solvents like IPA, MDC, Acetone, Glycerol etc as per USP/ EP/ BP/ IP/ JP. For detailed list of products, please visit our website i.e. www.adventchembio.com. Contacts: Mobile: 9136902597 Email ID: marketing1@adventchembio.com

Website: <https://alkylamines.com/>

Alkyl Amines Chemicals Ltd. (AACL) is a global supplier of aliphatic amines, specialty amines and amine derivatives to the pharmaceutical, agrochemical, water treatment, rubber chemical and a variety of industries. We work closely with our customers to develop products for their requirements and cater to their specific needs on quality, specifications and supply chain. Our focus on technology, scale of manufacturing as well as our ethical approach to business sets us apart as

the partner of choice for amine chemistry. All our products are developed by our dedicated research scientists and engineers at our technology center at Hadapsar, Pune, who interact with our customers to identify molecules of interest to scale up from gram to commercial. Intensive process development and analytical methods for impurity identification along with engineering optimization during scale up and haz-op analysis are conducted here. We continue to augment our technology team and capabilities to expand our technical competence to platforms beyond amine chemistry. Our certifications are a testimony to the efforts that each one of us puts every day to continually maintain and improve our standards of excellence in quality, innovation and precision. Alkyl Amines Chemicals Limited is certified for 4 ISO standards viz. QMS, EMS, OHSMS, EnMS along with the Responsible Care certification by the Indian Chemical Council. AACL has practiced sustainable measures since its inception. This has helped us sustain & sail through unprecedented times.

Website: <https://amarequip.com/>

Amar has 45 years of experience in the design, manufacture & supply of high-pressure high-temperature batch and continuous reactors & allied systems. Our products are designed for various types of applications in lab, pilot, and plant-scale volumes ranging from 1 ml to 10000 ltr, with pressures up to 700 bar & temperatures up to 1000°C in different materials of construction. Almost every chemical company in India has an Amar autoclave in its R&D lab or pilot plant. We have five decades of industry confidence behind our quality products and service. Our customized solutions are frequently used for various chemical reactions & processes including supercritical fluid extraction, corrosion testing and studies, gas hydrate formation studies, etc. These reactors are primarily used in R&D, pilot, and manufacturing facilities of various chemical, pharma, oil & gas industries, research, and educational institutes. For the past four decades, Amar has supplied over 5000 systems and cemented a place for itself as one of the leading manufacturers of pressure reactors, pressure vessels, pilot plants, and flow reactors catering to all major industries worldwide. Amar Equipment is an ISO 9001 – 2015 certified company and can offer custom systems with CE – PED, ASME U stamp, and Explosion proof (Ex) certifications. ATEX, CSA, CRN, DOSH, and Australian worksafe registrations can also be offered on request depending on local regulations of each country.

Anshul Life Sciences (ALS) founded in 1978. ALS with more than 94 strong team members and 3 application labs, is marketers and solutions providers supplying:

- Intermediates including Acid Chlorides, Chloro Methyl Isopropyl Carbonate, Oxalyl Chloride, Methyl Oxalyl Chloride, 2-Chloro Ethylamine Hcl, Anthranilates, Isatoic Anhydride and other Specialty Chemicals.
- Under new product category, we are offering intermediates of Febuxostat, Sitagliptin, Teneligliptin, Citicoline & Tizanidine.
- Surfactants, Adjuvants and Specialty Lignin Chemicals for Agrochemical Formulation.
- Excipients including Tablet Binders, Disintegrants, Diluents, Lactoses, MCC grades, HPMC grades, Silica MCC compounds, Effer Soda, Mannitol, Sorbitol grades, Starches, Defoamers, Taste Masking solutions for Pharmaceutical formulations, Solubilizers etc.
- Flavor and Fragrance chemicals including Methyl Anthranilate, Dimethyl Anthranilate, Ethyl Anthranilate, Other Anthranilates, WS3, Coolent Complex, and other Ingredients.
- Fine fragrances for House Hold products and Personal Care.
- Specialty Ingredients and Actives for Personal Care Products.
- Functional ingredients including Vitamin E, Beta-carotene, Xanthan Gum grades, Sucralose, Maltitol grades for Food and Nutra applications.

ALS is associated with leaders like Ingevity, Arxada, Momentive, JHNNH, Armor, Mingtai, Lotte, Mitsubishi, Mibelle, SNF and other leading suppliers. ALS wishes to explore alliances and collaborations in terms of product distribution, product development, analytical development and contract manufacturing.

AVA Chemicals (P) Ltd. is a Mumbai based ISO 9001:2015 certified REACH registered company manufacturing and exporting the entire range of chelating / Sequestering agents and fine chemicals for more than four decades. Distinctive foresight gave direction to its pursuit of manufacturing chelating agents in India. Commencing its operations with the manufacture of EDTA. AVA expanded its product range to include other chelating agents like DTPA, NTA, Fe-EDDHA, HEDP, Humic Acid etc. and their derivatives AVA's strong technical background and cumulative expertise of handling complex chemicals reactions has made it a leading producer of quality products with a large share in the Chelating / Sequestering chemicals segment in India. AVA has been informally branded as "The EDTA Professionals" by prominent professionals from the chemical trade. Building strong relationships, supplying quality products and surpassing client expectations have been the key drivers of AVA chemicals. Decades of association with diverse industries in the field of organic and inorganic chemicals has ensured that AVA's products are used by a wide spectrum of industries like Agrochemicals, Lab Reagents & Pharmaceutical, Soaps and Detergents, Textiles and many

more. AVA has expanded its product range to include grades of a wide gamut of Acetates, Carbonates, Chlorides, Citrates, Phosphates, Nitrates, Oxalates, Sulphates etc. Today, AVA Chemicals is recognized as a leading producer of various grades of different Fine Chemicals besides Chelating agents. Welcome to Chemclone Industries, a distinguished organisation in the manufacturing of bromine derivatives, with a rich legacy spanning over 33 years in the industry. As the name CHEMCLONE suggests, CHEM from CHEMISTRY - because we are in chemical domain and CLONE from our value added product Dichlone, and it's become a Chemclone Industries. We have our own 5 manufacturing site based in Gujarat and have separate EXIM division namely RONIT ENTERPRISE Renowned for our unwavering commitment to quality and innovation, we specialize in the production of high-grade bromine-based solutions, Speciality Chemicals, Intermediates, Organic & Inorganic Fine Chemicals agrochemicals intermediate & Technical. At Chemclone, we take immense pride in our strong presence throughout the Indian domestic market, where we supply our bromine derivatives to various sectors, including pharmaceuticals, agrochemicals, and more. One of our key strengths lies in our robust contract manufacturing services, which have been a cornerstone of our organisation for over 15 years. Through strategic partnerships and collaborative efforts, we have earned the trust of our clients by delivering tailor-made solutions that meet their specific requirements and exceed their expectations. With Liquid Bromine storage capacity of 150 MT in isotank, we ensure a reliable safety and ample supply of this essential bromine derivative to our valued customers across India. Our commitment to excellence extends beyond product quality to encompass environmental stewardship and sustainability, as evidenced by our stringent quality control measures and responsible manufacturing practices.

Chemtrol Industries

Contact Person: Mr. Sachin Bhatt,
Address: 678, GIDC Industrial Estate, Makarpura, Vadodara-390010, Gujarat, India
Website: <https://chemtrol.co.in/>

Chemtrol Industries has the privilege to be the First Manufacturer of Non Metallic Chemical Process Pumps in FRP (Fiberglass Reinforced Vinyl Ester Resin) pumps in India. Having entered the market in later half of 1977, Chemtrol has to its credit a sizeable and impressive client list. Our pumps are in operation at NTPC, DAE, HWP, BHEL, Brahmos, IFFCO, KRIBHCO, Tata Chemicals, Reliance Industries Ltd., L&T, Travancore Cochin Chemicals, Travancore Titanium, Ion Exchange, Thermax, Toshiba, HINDALCO, as well as overseas clients like Steag Power, Doosan Heavy Industries, SQM and many more. All wetted components - Casing, Impeller Casing Back Cover, Gland Plate are solid composite structure of Fiberglass Reinforced in Vinyl Ester Resin through unique Moulding process with hydraulic passages and contact surfaces smoothly contoured and rich in resin, ensuring excellent resistance to corrosion and abrasion. The mechanical seal pumps are fitted with single composite structure of Impeller, Impeller Nut and Shaft Sleeve, eliminates the joint and prevent liquid penetration towards shaft. For highly abrasive service, we provide pumps with special fillers. Our pumps are used to handle HCL, Dilute H2SO4, Caustic, Dyes, Nitric Acid, Sea Water, Hazardous Effluents, Scrubbers, FGD applications. Chemtrol pumps are available in Horizontal, Vertical Glandless and Vertical Submerge version. Recently we have introduced Horizontal Pumps in ANSI standard to cater overseas clients as well as lined pumps in PVDF, PFA, FEP.

The Central Institute of Petrochemicals Engineering & Technology (CIPET) is a technical higher education institution under the Department of Chemicals & Petrochemicals, engaged in skill development, technology support, as well as academic & research activities for the promotion of the petrochemical and allied industry in the country. CIPET has 46 centres across the country which includes 8 Institutes of Plastics Technology (IPTs), 31 Centres for Skilling and Technical Support (CSTS), 03 Schools for Advanced Research in Polymers (SARP) and 4 sub-centres. All CIPET Centres are equipped with state-of-the-art infrastructure and facilities in the areas of polymer processing, testing and quality control, design, and tooling & mould manufacturing. In this context, CIPET caters to the industry in terms of the development of new technologies, consultancy and technology support, and promotion of technical talent and skilled manpower. In addition, CIPET plays a pivotal role in generating employment opportunities through various skill development training programs. CIPET also works in close coordination with the industry to implement initiatives in the areas of polymer and allied industries in the sphere of environmental protection and sustainability.

1B06**Clariant IGL Specialty Chemicals Pvt. Ltd.**

Contact Person: Ms. Melrina Mascarenhas,
Address: Reliable Tech Park, 9th Floor, Thane - Belapur
Road, Airoli, Navi Mumbai-400708, Maharashtra, India
Phone: +91 22 71251000
Website: <https://www.clariant.com/en/Corporate>

Clariant IGL Specialty Chemicals Private Limited (CISC), a joint venture between Clariant and India Glycols Limited, is a leading manufacturer of green technology-based chemicals. The company has a multipurpose production facility including an alkoxylation plant based on renewable bio-ethylene oxide, located in Kashipur, Uttarakhand (India). CISC is a leading supplier of green ethylene oxide derivatives in India with a focus on renewable solutions catering to the rapidly growing specialty chemicals market in India, Bangladesh, Sri Lanka, and Nepal. Apart from ethoxylates, the product profile covers a wide gamut including Biocides, Surfactants, pH Stabilizers, Defoamers, Emulsifiers, Wetting agents, Dispersing agents, Humectants and Specialty Solvents. In alignment with our purpose statement of "Greater Chemistry – between people and planet", we are committed to providing our customer base with more innovative, sustainable and tailor-made solutions that would enhance customer satisfaction. Our VITA range of surfactants and PEGs are 100% bio-based, carbon-reduc-

ing, fully segregated with RCI (Renewable Carbon Index) of >95%. This will support our customers reduce their carbon footprint and Scope 3 emissions while delivering the same performance as fossil-based versions. Our R&D and technical application facilities supported by Clariant's global expertise along with the benefit of local manufacturing make CISC a preferred partner for various industries including Coatings, Industrial Lubricants, Crop, Textile, Construction, Pharma, Personal Care and Home Care. With our labs situated at Kashipur and Navi Mumbai and the plant located at Kashipur we are strategically located to be closer to our customers and deliver quicker and enhanced service.

1E22**Connect Chemicals India Pvt. Ltd.**

Contact Person: Mr. Prakash Karkera, Head Commercial
Address: 702, Centre Point, J. B. Nagar, Andheri - Kurla
Road, Andheri (East), Mumbai-400059, Maharashtra, India
Phone: +91 22 46054466
Website: <https://connectchemicals.com/en/>

Connect Chemicals is a global producer, custom manufacturer, and traditional distributor of a wide range of specialty chemicals. Established in 1998, with headquarters in Ratingen, Germany, offices on four continents and an international network of partners, we offer global coverage, serving both local and multinational organizations. Connect Chemicals India was established in 2004 with its headquarters in Mumbai. It acts as a vital link between Connect Chemicals Group and the ever-growing network of specialty chemical producers and customers in India. To meet the ever-changing trends in the chemical industry, Connect Chemicals has evolved into a unique hybrid company. To catalyze this change, we have developed a Modular Custom Manufacturing process. Our own resources are augmented by external cutting-edge technology to serve the specific customer requirements. From R&D, Process development, Piloting, Scale up and Commercial Production, we are there every step of the way with you. Continuously and progressively the company invests in state-of-the-art facilities, R&D labs, advanced technology, analytical capabilities, and a highly qualified technical team of experts. The Pune-Connect Chemicals Technology Centre was inaugurated in April 2023. This Research and Development facility is a new building block to further excel in our Modular Custom Manufacturing initiative. Our experienced team of chemists and scientists is led by our Indian Director & CEO, Mr. Suresh Manjrekar and our Head of Research & Process Development, Dr. Christian Beierlein. With their leadership, we transform Your ideas to product.

Central Salt & Marine Chemicals Research Institute (CSM-CRI), Bhavnagar is Gujarat based premier laboratory of the Council of Scientific & Industrial Research (CSIR), New Delhi, inaugurated by Hon. Pt. Jawaharlal Nehru, the first Prime Minister of independent India in 1954. CSIR-CSMCRI with its persistent efforts and continued scientific excitement has achieved technological excellence in the core mandate it pursues and is one among the top performing national R&D laboratories in the country. As on Nov 2023, the Institute has around 218 staff with 170 S&T staff on its roll and around 202 research fellows and project assistants pursuing their doctoral programme and engaged in several projects. CSIR-CSMCRI currently focuses on diverse and highly applied research areas such as salt and marine chemicals, water desalination and purification, membrane based processes for separation & concentration, inorganic materials and catalysis, fine & speciality chemicals including sensing and diagnostics molecules, renewable energy, plant molecular biology & biotechnology with emphasis on seaweeds & salinity tolerance and waste management with a thrust on value recovery and environmental Impact assessment. The institute's endeavour/outcome is well balanced by knowledge generation, intellectual value creation, industry association and societal interventions. This institute is recognized as one of the best performing national laboratories of this country within and outside CSIR fraternity. According to the 2023 Scimago Institutions Rankings (<https://www.scimagoir.com/rankings.php?sector=&country=IND>), We are among the top 600 Global Institutions and top 19 institutes of our country

 Website: <https://www.elchemy.com/>

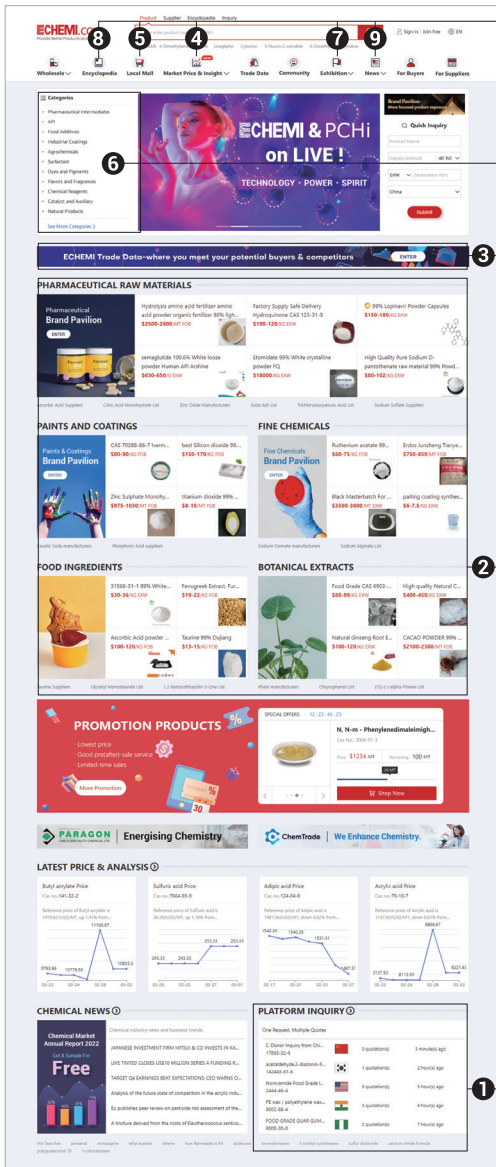

Elchemy, a brand of BizinBiz Technologies Private Limited, was started at the peak of the global COVID-19 pandemic when supply chains in the chemical industry were going through turmoil. Chemical manufacturers have realized how dependent they were on a single source of raw materials and these supply disruptions are hitting them hard. Naturally, they want to diversify their supplier base. And we help chemical manufacturers and distributors in developing new sources of supply. In just a short span of time, we have partnered with 100s of small and medium-sized chemical manufacturers from India. We aggregate demand to offer economies of scale on material pricing previously unavailable to individual customers and projects. We offer access to 25+ contract manufacturing sites, R&D facilities. Reliability is our north-star metric. Our customers find us reliable, both in terms of quality and promised lead times. We take end-to-end ownership of product

Provide Better Products and Services

Ester India

Contact Person: Ms. Niraly, Head Preservatives
 Address: 128/29-30, GIDC Nandesari, Vadodara-391340, Gujarat, India
 Phone: +91 265 2840772
 Website: <https://esterindia.com/>

Ester India was established in 1980 as a small-scale unit manufacturing fine chemicals. The unit is situated at an established chemical estate Nandesari, about 16 kms. north of the city of Vadodara which is situated in the western part of the country, about 450 kms north of Mumbai, the financial capital of the country. Since beginning, the emphasis has been on putting in efforts to develop in-house technologies for high value added products. The hydantoin molecule was developed in 1982, making us pioneers of this in the country. Today, three halogenated derivatives of this hydantoin molecule – namely Dibromo, Dichloro and BromoChloro – dimethylhydantoins are being manufactured and marketed. Our manufactured products include three major verticals. Pharma intermediates being the first one, water treatment/Biocides, plastic and paint chemicals and most recent being cosmetic preservatives and chemicals that followed. Ester India, by virtue of its ethical business practices and excellent customer service, has earned the trust of some of the most reputed domestic and multi national companies in the pharmaceutical and cosmetic industries. Recently, we have forayed into export of cosmetic chemicals to various countries in North America, Latin America, Europe and South East Asia, and Australia. We cater to the needs of many multinational and Indian companies on a regular basis and are also toll manufacturers for many MNC's.

 Website: <https://www.glatt.com/en/vertretungen/glatt-india-engineering-pvt-ltd/>

At Glatt Ingenieurtechnik GmbH we plan, design and implement international projects ranging from the expansion of existing production facilities to the construction of entire new production plants. Our expertise is the development of optimal, customized integrated solutions for the production of functionalized powders and granules. As a pioneer of fluid bed and spouted bed technology and patented powder synthesis in a pulsating hot gas stream, we have many years of experience in pioneering process solutions for drying and spray granulation of liquids containing solids, for instantization by spray agglomeration of powder, for micro- and matrix encapsulation of active ingredients, for synthesis of novel powder systems by spray calcination and for coating / core-shell of

nanoscale particles up to particle sizes in the millimeter range. Our focus is on processes concerning particle design and particle engineering. We develop, optimize, functionalize and produce powders and bulk materials such as granules and pellets. The powders and bulk solids that we process are used in food, feed, chemicals and fine and agrochemicals, as well as in processes for the production of biotechnological and chemical active ingredients of sterile and non-sterile pharmaceutical dosage forms.

Green ChemisTree Foundation

Contact Person: Ms. Krishna Padia, Executive Director
Address: 405 Mastermind IV, Royal Palms, Aarey Colony, Goregaon (East), Mumbai-400065, Maharashtra, India
Phone: +91 22 28791835
Website: <https://www.industrialgreenchem.com/>

Green ChemisTree Foundation (GCF) Mumbai is a not-for-profit organization, registered in 2009 under the Section 25 of non-profit Companies Act; established with the vision to serve the Indian Chemical Industry in its Green Chemistry and Green Engineering (GC&E) pursuits for ensuring environmental sustainability in chemical manufacturing practices. The prime objective of all GCF's activities is to expand in-depth understanding of GC&E based practices amongst chemical communities, both Industry and non-industry sectors. The Foundation, through its various national and international deliberations facilitates the world-wide chemical community to explore, engage, exchange and expand their GC&E paradigms for preventing and / OR minimizing process-intensive chemical wastes at the source of its generation, with a profit-centric approach. Green ChemisTree Foundation is the conceiver and organizer of India's first and largest Industrial platform titled "Industrial Green Chemistry World (IGCW)", an international Convention being held in India every two years since 2009; and have declared its commitment to facilitate the IGCW Convention series till 2025.

Gujarat Narmada Valley Fertilizers and Chemicals Limited (GNFC)

Contact Person: Mr. Tejash A Shah, AGM
Address: P.O. Narmadanagar, Bharuch Dist.-392015, Gujarat, India
Phone: +91 2642 202274
Website: <https://www.gnfc.in/>

GNFC, established in 1982, is a company promoted by Govt. of Gujarat engaged in manufacturing of Fertilizers, Chemicals and IT products. GNFC started out as a fertilizers manufacturing company and has kept pace with the changing times and its vision is always focused on growth. Even as the Company was implementing its fertilizer complex, plans were underway for expansion and diversification in related areas. This resulted in the setting up of core chemical and petrochemical plants such as Methanol, Formic Acid, Nitric Acid, Acetic Acid, Toluene-Di-Isocyanate, Aniline, Concentrated Nitric Acid, Ammonium Nitrate, Ethyl Acetate, Methyl Formate, Nitro Ben-

zene, Catsol, and Technical Grade Urea. GNFC is the sole manufacturer of Acetic Acid, Formic Acid, TDI and Aniline in India. These industrial chemicals are used by a wide range of manufacturers, processors and chemical operators in India and even abroad which are regularly being exported to international markets. GNFC complex has been certified for ISO 9001, ISO 14001, ISO 45001 & ISO 50001. As part of a major initiative in the Internet security domain, its division (n) Code Solutions has set up a world class PKI facility to offer Digital Signature Certificate & range of PKI based solutions. (n)Code Solutions offers Digital Certificates that can integrate with applications such as emails, workflow, enterprise wide applications, or secure VPNs. GNFC, since January 2015 has taken a lead in implementing the vision of the honourable Prime Minister of India of 100% Neem Coating of Urea.

H.E.L Group's mission is to work together with chemistry, safety and biotechnology experts to engineer and unleash the full potential of the scientific community. To this end, H.E.L develops and manufactures innovative scientific instruments and software designed to optimize the efficiency, safety and productivity of key processes in chemistry and biology applications. The H.E.L team of 70 includes highly skilled process and software engineers, based at their extensive research and manufacturing facilities in the UK, as well as sales and support offices around the world. H.E.L has a long history of solving complex challenges for customers. For more than 30 years the Company has worked with businesses and laboratories globally, providing proprietary automated solutions for the pharma, biotechnology, chemical, battery and petrochemical sectors. Following significant growth, and with annual revenues exceeding £10 million, the Company is extending the reach of its products to support and enable R&D and process optimization further across the US, China and India. In response to India's growing biotechnological and pharmaceutical markets, a new subsidiary was formed in India in February 2022, led by Rajeev Kumria. This was to enable a better customer experience and support for our customers in this region.

We, Hemani Global, are manufacturer of PNCB, ONCB and its derivatives since 3 decades. We have multiple manufacturing sites at Vapi, Sarigam & Saykha. Our Product range - PNCB, ONCB, 3,3 DCB Ortho di anisidine base, 2,4 DNCB, 3,4 DCNB, 2,5 DCA, 3,4 DCA, OCA, PCA, ONA, PNA, OCPNA, OPDA, OA, PA, Dichlone, PAP. Reactions we undertake: Nitration, Chlorination, Hydrogenation, Ammonolysis, Methoxylation, Sulphonation, Hydrolysis, Alkyations. We regularly mkt and sell our products - domestic mkt and export mkt We have our own solar energy base power generation site. We undertake custom synthesis jobs. We also produce & cater our products as per customer's product specification. We have in house full fledged & well equipped QC &

H.E.L's Process Safety solutions can help boost the productivity of your process and increase its efficiency.

Hazard screening

- Reduce risk with rapid screening of thermal and pressure hazards
- Screening of raw material and reaction mixtures
- Thermal reaction screening of reaction hazards in process scale-up
- Thermal stability studies on the reaction waste stream

Adiabatic testing

- Seamless scale-up with characterization of thermal runaway hazards
- Calculation of key temperature and pressure parameters
- Characterize rapid decompositions with the high data-rate acquisition option
- Plant scale parameters from the laboratory – HAZOP assessment
- Low Phi-factor testing with Phi-TEC II

Reaction calorimetry

- Optimize process conditions and determining safer reaction conditions
- Dual reactor options available offering more flexibility for applications
- Calibration-free power compensation calorimetry

QA dept. Effluent treatment - We are member of CETP & solid waste sites for each and every manufacturing site & we also have in house primary treatment facility. The Institute of Chemical Technology was established on October 1, 1933 as University Department of Chemical Technology (popularly called UDCT) of the University of Bombay. The institute was converted in to a Deemed-to-be-University Institute of Chemical Technology (ICT) by the Ministry of Human Resource Development (MHRD), Govt. of India, on 12 September 2008. ICT Mumbai one of the leading national institutes is devoted to education, training, research and industrial collaboration in chemical engineering, chemical technology, applied chemistry, pharmacy, biotechnology and bio-processing. Based on its stellar performance, the Government of Maharashtra granted it the Elite Status and Centre of Excellence in the State Assembly on April 20, 2012. This is a singular distinction accorded to any institute in the entire country. Today ICT boasts of two additional campuses the "ICT Mumbai Indian Oil Odisha Campus" at Bhubaneswar inaugurated on 18th March 2018, and the Marathwada Off-campus at Jalna, inaugurated on May 4, 2018. ICT's contribution to wealth creation must be one of the best amongst the branded institutes. ICTs endeavours, extend well beyond the confines of the classroom, and aim to enhance public welfare. Attempts to dissipate knowledge through to a multi- and cross-disciplinary platform through education, research, discovery, technology development and service to industry. and entrepreneurship, In consonance with India's aspirations of Atmanirbhar Bharat and becoming a \$10 trillion economy in the coming years ICT's latest foray is to nurture the innovation and entrepreneurship ecosystem through the incubator ICT-NICE.

novation and research since 1979. A company fuelled by ambition and driven by sustainability, has achieved substantial growth, expanded into new regions and countries, and successfully attracted a diverse customer base around the world. As a diverse and versatile chemical company, we cater to a range of industries with our solutions. Our primary focus lies in the textile industry, where we offer a comprehensive range of solutions spanning Pre-treatment, Dyeing, Printing, Finishing Coatings, and Enzymes. Our commitment to sustainability allows us to deliver value to our customers by offering them sustainable alternatives that contribute to water and energy conservation while reducing costs.

1C01**Neogen Chemicals Ltd.**

Contact Person: Mr. Sameer Kumbhar, Sr Manager Marketing
Address: 1002, Dev Corpora, Cadbury Junction, Eastern Express Highway, Thane (West)-400601, Maharashtra, India

Phone: +91 22 25497309

Website: <https://neogenchem.com/>

We are one of the Pioneers of Lithium, Bromine and Grignard Chemistry in India. Apart from Bromination and Grignard chemistry, Neogen has also developed competencies in other related chemistries, such as, Alkylation, Acylation, Aminatin, Oxidation, Dehalogenation, Silylation, Halex reaction, Friedel Craft, Couplings and Chlorination. Neogen functions out of its four state-of-the-art manufacturing facilities. These are located at Mahape, Navi Mumbai, Maharashtra, Karakhadi in Vadodara, Dahej SEZ in Gujarat and Sangareddy, Hyderabad. Together, these occupy around 57 acres of land. The Company has acquired BULI Chemicals India Private Limited in the month of May 2023 which has its facility located at Hyderabad spread across 5 acres. In addition, the Company has plans to utilise its three decades of expertise in lithium chemistry for manufacturing Specialty Lithium Salts and additives for Electrolyte used in lithium-ion battery advance chemistry cells, to produce electrolytes and lithium salts required for electrolytes. Further, Neogen has obtained the license from MU Ionic Solutions (MUIS) (a JV between Mitsubishi Chemical Corporation (MCC) and UBE Corporation and is a group company of The Mitsubishi Chemical Group (the group) a Japanese conglomerate) for availing its proprietary and confidential manufacturing technology for making Neogen's electrolyte solutions at its manufacturing facility in India with a planned max installed capacity of upto 30,000 MT per annum. These electrolytes will be targeted by Neogen to meet the growing demand of lithium-ion cell manufacturers in India.

Website: <http://www.omkarlab.com>

We are an established manufacturer of superior quality, highly selective, wide range Catalysts & Providing Hydrogenation Job-Work on Commercial scale. Following are products and services we offer: 1) Heterogeneous Catalyst of Palladium, Platinum, Rhodium, Ruthenium, Iridium, Raney Nickel etc. For the Hydrogenation process. 2) Homogeneous Catalyst of Palladium, Platinum, Rhodium, Ruthenium, Iridium, Nickel etc. For Cross-Coupling and other Reactions. 3) We provide Regeneration, Refining or Buyback of Precious metal Catalyst, Salts & Compounds - Byproduct, Unused Raw material of catalyst, salts or material containing metallic content as

per your requirement. 4) Hydrogenation Job-Work from Gram scale to Tonnage scale. It is cost-effective for company to do job-work at our end as they don't need to maintain catalyst inventory or worry about catalyst loss. Basically Hydrogenation Job-work can be done without incurring capital Cost of Catalyst Advantages shifting hydrogenation to Omkar Lab explained: a- Catalyst price fluctuations volatility minimised since it is included in Omkar scope of job work. b- No worries of catalyst collection, losses etc. and variation in product costs - as the catalyst consumption norms are fixed based on the lab / pilot trials. c- Zero inventory holding cost of precious metal catalysts. 5) Product/ Process Development - With our expertise in Catalyst & Hydrogenation, we can help you out with new products or existing processes with scale-up at our end making it economically viable.

PROCAT: Established in 1973 as Monarch Catalyst, PROCAT has been a pioneering force in the catalytic solutions industry. With an unwavering commitment to excellence and innovation, we have consistently set industry standards and earned the trust and recognition of our peers. NEOCAT: PROCAT proudly introduces NEOCAT, a dynamic addition to our catalytic solutions family. NEOCAT, launched in 2023, represents a bold step forward in our journey of growth and expansion. Positioned as a distinct entity, NEOCAT embodies our vision for the future of catalysis. With a focus on cutting-edge solutions and sustainable practices, NEOCAT is poised to redefine industry standards and drive innovation. Vision & Commitment: At PROCAT and NEOCAT, our vision is to pioneer the future of catalytic solutions through innovation and sustainability. We are dedicated to fostering partnerships, empowering our customers, and driving positive change in the industry. Together, we strive to create a brighter, more sustainable future for generations to come. Our Offerings: Both PROCAT and NEOCAT offer a diverse portfolio of catalysts and catalytic technologies catering to various industries. The catalyst offered are: Skeletal Nickel Catalyst (Raney Type), Precious Metal Catalysts (homogeneous and heterogeneous), Precious Metal Refining services, Zeolites, Mixed Metal Oxides (Cu-Cr, Cu-Cr-Al, Cu-Cr-Zn, MnO-BaO, etc.), Super Acid Solid Catalyst, Fuel Cell Catalysts, as well as Fixed Bed Catalysts & catalytic technologies. These are just a few examples of what we have to offer. Our offerings encompass a wide range of catalytic solutions designed for optimal performance, consistency and reliability.

Punjab Chemicals & Crop Protection Ltd (PCCPL) is a technology driven, reliable and cost effective contract manufacturing partner providing transparent, cost-efficient contract manufacturing services. We are having rich experience in custom synthesis, piloting and technology transfer up to final commercialization of new and complex chemistry molecules. We are extremely adaptable at absorbing technologies and quick turnaround of projects and products. Confidentiality is an extremely important pillar for us. A notable strength of PCCPL is its robust research and development (R&D) capabilities, which empowers the company to optimize products, develop and scale up processes, serving the complex chemistry needs of its Agrochemical customers effectively. Over the years PCCPL has ensured continuous investment in R&D and also aligned with the industry best practices. R&D teams also work on new product development and scale up to pilot and semi commercial, operational excellence for development and testing. We believe in long term partnerships, continuous improvement and new technology adoption. PCCPL already has been in successful partnerships with major multinational agrochemical companies in Japan, Europe, America and India & consistently delivers a wide range of Agro intermediates to bolster the operations of agrochemical giants. This achievement is a testament to PCCPL's commitment to fostering strong and long-lasting customer relationships and delivering exceptional services to meet the needs of its valued clients. Specialized Areas: We are a one stop solution provider in CRAMS (Contract research & manufacturing services) segment for Agrochemicals, Intermediates, Speciality chemicals & Industrial chemicals.

Hello All, We RSD Polymers Pvt Ltd has Established in 2008, we commenced manufacturing and sales of our polymer range in 2009. Our products cater to diverse industries including water treatment, ceramic and tile, textile processing, detergent and cleaning, paint and pigments, paper making, oil fields, and sugar processing. Our product line features carboxylate polymers, primarily low molecular weight variants synthesized using acrylates like acrylic acid, methacrylic acid, maleic anhydride, acrylamide, and specialty monomers like AMPS, TBA, polythenglycol acrylates. These polymers deliver key performance across various industrial applications: Water Treatment: Effective scale inhibition in cooling towers and reverse osmosis systems. Ceramic Industry: Serving as disaggregating and grinding aids. Textile Industry: Acting as dispersing and chelating agents. Detergent and Cleaning: Functioning as soil anti-redeposition aids and performance improvers. Paint and Pigments: Serving as deflocculating agents in slurries. Paper Making: Used as antiscalants and dispersants. Oil Field: Applications include antiscalants and mud drilling aids. Sugar Processing: Effective scale inhibitors in evaporators. Our commitment to innovation, quality control, and customer satisfaction has positioned us as a reliable partner in the industry. We continually strive for excellence and consider sustainability initiatives integral to our business values. For more detailed information on our recent innovations and certifications, we invite you to explore our website or contact our team for personalized assistance. Thanks & Regards
RSD Polymers Pvt Ltd Team

For last 20 years, Sawant Process Solutions has been a leader in providing process solutions through highly reliable equipment to a diverse set of industries. We are wholly committed towards helping our clients achieve excellence by setting up processes that meet their research, production, testing, and quality standards. Set up in 1995 by a young and determined entrepreneur, Sandeep Sawant was charged with the dream of providing world class equipment to various industries like pharmaceutical, chemical, agro-chemical, automotive, aerospace, fragrance and flavour, etc. all over India. Today, the world knows us as SAWANT PROCESS SOLUTIONS. The Company's growing vision and commitment is not only to provide quality in terms of equipment, but also after sales service, prompt service support and most importantly to be established as the preferred supplier in the industry. Partnering with the leading brands like VACUUBRAND, LAUDA, AGI, VTA, DIEHM, GENSER, PREMEX and ESCO-LABOR, SAWANT PROCESS SOLUTIONS re-affirms its commitment to quality, leadership and support. At SAWANT PROCESS SOLUTIONS, we have a strong propensity for action, we hold ourselves responsible for achieving total customer satisfaction. Constantly improving and challenging the status quo, we welcome change and push boundaries every time. Our team of experienced sales professionals and highly trained service engineers constantly strive to ensure that all our clients have the absolute best solutions which will enable them to have the competitive edge they desire.

 Website: <https://www.seijmierapharmachem.com/>

Seijmiera Pharmachem is into the manufacturing of Inorganic Chemicals. Our Key Products are Liquid Bromine 99.5% and Bromo Compounds, Bromide Salts, Phosphates, Nitrates, Acetates, Sulphates etc. We have a well Experienced team with more than 45 years in Manufacturing & Marketing Products : - Liquid Bromine 99.5%, Hydrobromic Acid - 48% & 62%, Sodium Bromide Solution and Powder, Calcium Bromide, Potassium Bromide Powder (KBr), Cuprous Bromide, Ammonium Bromide, Magnesium Bromide, Zinc Bromide, Barium & Bismuth Salts, Cadmium & Cobalt Salts, Mono Sodium Phosphates, Di Sodium Phosphates, Mono Potassium Phosphates, Di Potassium Phosphates. We can Supply Liquid Bromine in Bottles as well as in an ISO Tank of 1.5 KL (4.5 MT). We have a production capacity of 120 MT - 150 MT per month of Liquid Bromine. High Purity double distilled bromide made equivalent to virgin bromine. We buy spent Sodium Bromide (NaBr), Spent HBr, Potassium Bromide, Ammonium Bromide, Magnesium Bromide, Lithium Bromide, Calcium Bromide of Any Percentage generated from Pharma & Agro Companies. We can buy Spent Bromide Solution up to 900 MT per month under Rule - 9 and Supply Liquid Bromine against the same. We can undertake Bromine Recovery on Job Work Basis. Additional Capacity can be installed if required. We look forward to work on long term basis.

Our company is a leading manufacturer of refrigeration equipment that caters specifically to the Indian Navy, as well as produces high-quality chillers for the chemical and pharmaceutical sectors. We also specialize in value-added fabrication for engineering industries. With 40+ years of experience and technical expertise, we have built a strong reputation for delivering reliable, efficient, and customized solutions to meet the unique demands of our clients. For the Indian Navy, we understand the criticality of ensuring the proper functioning of refrigeration and air conditioning on naval vessels. Our refrigeration equipment is specifically designed and manufactured to withstand the challenging maritime environment while maintaining precise temperature control and durability. In the chemical and pharmaceutical sectors, we recognize the essential role that temperature control plays in preserving the integrity of raw materials and finished products. Our chillers

are designed with cutting-edge technology and advanced features to ensure optimal performance, energy efficiency, and compliance with strict regulatory standards. Furthermore, our value-added fabrication services cater to the engineering industries, providing bespoke solutions for various fabrication needs. Our skilled team of engineers and technicians work closely with clients to understand their specific requirements and deliver precision-engineered components and structures that meet the highest quality standards. At our company, we are committed to establishing long-term partnerships with our clients by providing them with reliable, innovative, and cost-effective solutions. Our dedication to excellence, attention to detail, and commitment to customer satisfaction have made us a trusted name in the industry.

Sunshield Chemicals Limited is a publicly listed company among India's leading manufacturers of specialty chemicals. As a global leader in the manufacturing of surfactants, antioxidants, and specialty functional chemicals. The company serves a diverse customer base across the globe and has long-standing relationships with many large global and Indian customers. Sunshield was acquired by Indus Petrochem Limited in 2021, an organization with several years of experience in chemical sales and marketing and have been on the growth path ever since. Our manufacturing facility is ISO 9001:2015 certified with best-in-class automation and safety systems. We produce a wide range of specially formulated and customized products for applications in paints and coatings, emulsion polymerization, agrochemicals, lubricants, rubber, home and personal care, and industrial formulations among others. We have a dedicated research and development team and a laboratory for research on new chemistries. We strive to continuously improve our processes and develop new products to serve customer needs. Our state-of-the-art Quality Control Lab is equipped with modern and sophisticated instruments backed by the technical prowess of our research team. Our products conform to national and international regulations, including European REACH. With a comprehensive quality management system that aligns with our world-class production practices, we have deep experience handling critical processes like alkoxylation, alkylation, esterification, transesterification, condensation, emulsion polymerization, high-temperature reactions, sulfation, and blending. Our commitment to satisfying our customers extends to quality products, competitive pricing, and consistent supply with an extensive distribution network. Established in 2006 by Mr. Mohanlal Goyal (B.E. Mech), MDS Group derives its name from the initials of its founders, including his sons, Mr. Devendra Goyal and Mr. Sumit Goyal. Headquartered strategically in Gandhidham, Gujarat, near the Kandla port, we are a diversified business group engaged in various sectors. Our operations encompass trading and import-export of industrial chemicals and engineering products, manufacturing industrial gases and chemicals, distributing cryogenic gases, providing 3P warehousing services, and transporting industrial chemicals. With branch offices in key locations such as Ahmedabad and Manufacturing facilities in Samakhiali (Kutch) and Pithampur (MP), we ensure seamless service delivery to our clients. Additionally, our ultra-modern warehouse in SIDCUL, Haridwar, spanning 1 lakh sq ft, caters to multinational companies like UNILEVER, offering top-notch warehousing and logistics services. Today, MDS Group stands as one of India's leading diversified business conglomerates. With our strong foundation in Gandhidham, Gujarat, and guided by visionary leadership, we are committed to delivering excellence in every aspect of our business. Driven by a talented team of over 700 professionals, we strive to innovate, build trust, and foster growth for our esteemed clients worldwide. The core of MDS Group's success lies in the collective expertise of our founder, Mr. Mohanlal Goyal, and his sons, Mr. Devendra Goyal and Mr. Sumit Goyal. The acronym 'MDS' represents our unified commitment to excellence and success.

UNIFAB is 100 Crore turnover company with a history of 15 years of technically strong expertise in turnkey process equipments right from Reactors, Columns, Autoclaves, Heat exchangers, ANF / ANFD , RCVDs, RVPD , Mixers and Blenders, Exotic metal equipments, PESO tanks etc.

Website: <https://www.wika.com/en-in/startpage.WIKA>

For over 75 years, WIKA has been a renowned partner and competent specialist for any task in the field of measurement technology. The reliability of the products and the readiness to face all challenges of the market have been the key factors for WIKA achieving a leading position in the global market. Think global, act local: Following the founding of the first subsidiary in 1960, there are now over 45 subsidiaries within the WIKA Group. Your partner in pressure, temperature and level measurement technology. Modern machinery, state-of-the-art welding equipment alongside helium leak rate detection and certified calibration and testing instruments ensure we can manufacture quality pressure and temperature measuring instruments to serve India's process industries. Sophisticated filling stations, supplied from WIKA Germany, have been installed to fill a range of different diaphragm seals connected to pressure gauges and both standard and smart transmitters. Our calibration laboratory has received NABL accreditation and is equipped with high level primary standard dead weight tester, Mensor pressure controller and highly accurate master gauges certified through DKD Germany. A team of experienced, trained sales engineers is ready to advise you on the correct selection of instruments and to provide after-sales services. To serve industry across India, we operate regional offices in Delhi, Mumbai, Bangalore, Chennai, Kolkata and Vadodara. WIKA Instruments India has established and operates a quality and environment management system according to requirements of international standard (ISO 9001, ISO 14001).
